

BG8//Clear Grab Pouch

Fabric Composition:
100% Transparent TPU

**Recommended area size for
decoration (WxH in CM):**

Showcased decoration method – *Transfer Print (Screen print transfer//Adkins swing head heat press used in this example)*

1. Set the heat press up at 145 degrees, low pressure, timer at 45 seconds
2. Position the pouch on the platen with the zip hanging off the side, and insert a thin silicon pad inside, so it keeps the two sides of the TPU apart from each other
3. Lay a cotton sheet over the top of the surface and pre-press the surface for 5 seconds
4. Position the transfer in your desired location, relay the cotton sheet and continue to press (*cut as much backing paper off as possible prior to attaching the transfer)
5. Slowly peel off the backing paper and leave to cool

**Personalisation and decoration can be applied in many areas. The above illustrates the easiest recommended area on this product.*

Please note we also have a video tutorial available for printing on this product. Please email hadley.turney@beechfield.com for further information.
